Kentuckiana Health Collaborative

- FORMED IN 2003
  - Lewin Study Conducted
  - 501c3 in 2011

- MISSION:
  To mobilize the community to improve health and well being by coordinating action-oriented efforts

- Priorities
  1. Healthcare Value
  2. Healthy Living
  3. Chronic Disease
UAW/Ford Community Healthcare Initiative

- Launched in 2001 in Louisville to encourage the development of a health care delivery system that:
  - provides high quality health services
  - improves community health status
  - enhances the quality of life
  - reduces the costs through the efficient and appropriate cost-effective delivery of services
  - promotes a culture of best practices

- Staffed with two directors representing UAW and Ford
Consolidated Measurement Reports (CMR) were created to improve patient outcomes and encourage best practices by collaboratively utilizing data to promote benchmarks and improved patient care.

- KHC selects measures annually
- Anthem, Humana, and Passport provide administrative data
- Primary Care Physicians & APRNs receive reports
- Distributed reports to over 20,000 providers in the last 6 years
- Reports currently in Greater Louisville (4 years statewide reporting)
